

### **ITinfo - An E-Zine for Techies & Me**

ITinfo is our daily email magazine (e-zine). About 54,000 IT professionals read it in email and print, and a few more hundred thousand or so read it on the web.

It's simple, straightforward, and easy-to-follow. Only the day's one most pressing story makes the editor's cut.

You can subscribe yourself for free from our homepage: [dgl.com](http://dgl.com). Past issues are posted at [dgl.com/itinfo/](http://dgl.com/itinfo/).

Come see what all the excitement is about. Subscribe to ITinfo and get the scoop.

### **Get Ready for Win2000**

Windows 2000 is coming this spring. It's replacing Windows 98 and NT.

Most of our computers will be fast enough, but we may need more RAM. With at least 128MB you'll be OK.

### **Reason #523 to Train at Damar Group**

We're proud of our certification and government accreditation, so we keep our standards high. We maintain a 4.95 rating from our students.

Let's do the math together: on a 5.0 scale, a rating of 4.95 means that at least 99% of our students rated us **excellent or above**.

### **FastTips: Fast & Easy**

We've been writing software training books since the 80's.

Trainers from Jessup to Jamaica to Jerusalem use our books in class because they know the best in-class training books when they see them.

We've taken all that we've learned and created a series of really great technical help sheets. They're called *FastTips* and they're available now.

### **Project Data in Your Palm**

MS Project 98 can now take their project data with them using a Palm computing device such as the Handspring Visor (my favorite).

### **Onsite Training... Is It Right For My Business?**

Research shows that onsite training is a big timesaver.

Small companies benefit from employees who can catch up with pressing work right after class. Major employers save the travel and per-diem expenses that may accompany multi-day seminars.

Our staff of certified, licensed trainers loves what they do. They're great at presenting software seminars. Our homebase is Maryland, but our motto is "have class, will travel."

Call our academic registrar today to discuss how inviting in one of Damar Group's certified instructors will improve your staff's efficiency right away.

### **Red Hat Embeds Itself**

At the LinuxWorld expo, Red Hat will announce a new toolset for embedded programmers. Linux can run on chips with as little as 32KB of RAM.

### **Address Change**

We haven't moved our Columbia training center, but we've changed our administrative address.

Please send all correspondence and shipments, including invoices and payments to our Elkridge address (see the upper corner of this page).
