

Damar Group

Learning Guides Available

Training Express learning guides are available in both printed, hard copy and Electrobook™ versions.

Titles cover major application software such as all applications included in the Microsoft Office suite, WordPerfect for Windows, Windows, and Paradox.

Printed, disk, and CD-ROM versions are available by calling Damar Group at 410.290.7000. Samples of Electrobook™ versions are available from our Internet site: <http://www.dgl.com>.

Samples of popular titles may be freely downloaded from our website. The Electrobooks require Adobe Acrobat reader for either DOS, Windows, Mac, or Sun workstations. The Acrobat reader is also available on the website for no charge.

Computer trainers and corporate training departments, as well as individual users, benefit from using Training Express' proven learning method. These are the same texts that Damar Group instructors use when leading classroom training programs.

We know that the Training Express brand of learning guides is the easiest, shortest route to computer success.

The easy-to-follow exercises include many color demonstration pictures to help you measure your success.

For more information, please call 410.290.7000 or email sales@dgl.com.

If you prefer to review sample guides, visit <http://www.dgl.com>; the samples may be downloaded for *free!*

Which Web Suite Is Best?

There's really only one choice at the moment for most Windows 3.x Internet users: *Internet In A Box*. IBOX, as it's called, is available for less than \$100 at major software retailers and bookstores in the area.

IBOX is the easiest, most complete, Internet access suite to date. It requires 17 MB of disk space to install, and then it removes a few temporary files that it created and slims down to 11 MB. It will load in 4 MB of RAM; however, it begs for 8 MB.

IBOX isn't difficult to install but to make it easier, Damar Group and Softaid Net Works wrote a graphic installation manual to help users get started faster.

Also, a Training Express learning guide designed expressly for IBOX is available an introductory price of \$7.⁹⁵ by calling our customer service associates at 410.290.7000 or sales@dgl.com.

For Windows 95 users, we recommend using the built-in 32-bit Internet access software that comes with Win95 and low-cost or free software that's available on the Internet.

Our suggestions include Netscape Navigator 2.0 for web browsing and newsgroup reading, Eudora Pro for email, and WS_FTP for file transfer protocol procedures.

For all users who will be creating a web site, our #1 recommended choice is Hotdog. All of these products are available on the net. If you would like assistance in locating them, please email info@dgl.com.

Upcoming Classes...

Using The Internet	11/29*
Internet Biz & Home	12/6, 12/15
Making \$\$\$ on Internet	12/6, 12/15
Homepage Dev.	12/12, 12/20

Favorite Websites

Here's our short list of favorite websites:

<http://cwsapps.texas.net> is home to the Consummate Winsock Applications List. Forrest Stroud's one-stop shop for free and shareware software for Internauts.

<http://www.windows95.com> is the Internetworking Headquarters for users of Win95. Excellent explanations of advanced techniques make this a *must see* site for all Win95 users.

<http://catalog.com/columbia> is Jayne Bourke's Web Columbia. Community information, news, movie schedules, and more await you.

<http://www.yahoo.com> offers one of the most popular search engines on the Internet. Thoughtfully created, Yahoo is friendly to even the most novice user.

<http://www.dgl.com/coolsite.html> completes our list of favorite sites. Updated almost daily, this list helps all Internauts find what they need on the Internet.
